

2017-2018 Annual Report

What is the Carmel Green Teen Micro-Grant Program?

The Carmel Green Teen Micro-Grant Program awards grants of up to \$1000 each to young people to fund their environmental sustainability projects in Carmel, Indiana. This grant program is unique in that it is administered by a volunteer board comprised primarily of middle and high school students who inspire and mentor youth, ages 19 and under, to identify environmental needs within our community and to design, fund, implement, and evaluate appropriate projects to address those needs. Projects funded through our program must be youth-led and serve to reduce pollution, conserve natural resources, save energy, or reintroduce native species or habitats in Carmel, Indiana. This program is financially sponsored by Carmel Utilities and administered by Legacy Fund, the community foundation for Hamilton County and a CICF affiliate. Since inception in 2009, **fifty-seven** youth-led environmental projects have received funding, engaging over 1000 young people and saving Carmel citizens an estimated \$120,000 and over 250 tons of carbon dioxide emissions annually.

Youth-led Projects Funded in 2018 by the Carmel Green Teen Micro-Grant Program:

Helping Ninjas Help Pollinators \$1000 - Helping Ninjas students from College Wood Elementary School came together on Memorial Day Weekend, spending the holiday removing non-native invasive plants in three large areas of Founders Park in Carmel. Once cleared, the soil in these areas was improved and planted with plants native to Indiana which encourage butterflies, bee, and other pollinators to live and thrive.

Green Cubs Promote Reusable Bags \$700 - Orchard Park Elementary School Green Cubs promoted reusable bags at their school, helped pick up litter at Central Park, and collected used shoes for those in need to demonstrate reuse.

Helping Ninjas Help Garden and Compost \$780 - The College Wood Elementary School Helping Ninjas wanted to learn and teach about local organic gardening and composting. They planted organic vegetables in a community plot at the CCS Plots to Plates Community Gardens and donated over 75 pounds of local, organic vegetables to Second Helpings and their school cafeteria. The students also worked with the school cafeteria manager to start composting cafeteria scraps. Students educated their classmates on ways to go green using the school's bulletin boards.

Carmel Green Teen Micro-Grant Program

Carmel Green Teen Micro-Grant Program 2017-2018 Board Members:

Our program awards grants of up to \$1000 each to young people to fund their environmental sustainability projects in Carmel, Indiana. The grant program is unique in that it is administered by a volunteer board comprised primarily of middle and high school students who inspire and mentor youth, ages 19 and under, to identify environmental needs within our community and to design, fund, implement, and evaluate appropriate projects to address those needs. Board members maintain our website, promote projects in their schools and in the press, review grant applications, and award funds.
